Okonkwo 2023

Title: Pilot of Intervention X.

The reported sample size in Okonkwo 2023 was 18 adults.

Results of the pilot trial are summarized here.

Okonkwo 2023 reported a modest improvement in sleep onset latency.

The authors describe the result as preliminary and not final.

Limitations of the pilot are listed here.

A reported limitation is the sample size of 18 adults.

The report says the sample is too small to establish effectiveness for Intervention X.
